Mr Craig Marler
Project Director & Principal Planner
ADW Johnson
7/335 Hillsborough Road
WARNERS BAY NSW 2282

Dear Mr Marler,

**Karuah East Quarry Project (MP 09_0175)
Request for Preferred Project Report**

I refer to your letter dated 31 May 2013 providing the Response to Submissions (RTS) for the Karuah East Quarry Project (MP 09_0175).

I note that the RTS highlights that substantial changes are now proposed to the project. In these circumstances, in accordance with Section 75H of the *Environmental Planning and Assessment Act 1979*, the Director-General requests that you submit a Preferred Project Report (PPR) for the Karuah East Quarry Project.

The PPR should include the following:

- a detailed description of the changes to the project design from that proposed in the original project application and the Environmental Assessment (EA);
- clear maps and figures illustrating the differences between the preferred project and the original project;
- references to the EA for the elements of the preferred project that remain unchanged;
- an updated Ecological Assessment and revised Offset Strategy;
- an updated Air Quality Impact Assessment;
- an updated Surface Water Assessment; and
- any other supplementary reports where varied impacts are expected.

I would appreciate it if you would provide the PPR to the Department within the 60 day timeframe as specified in your letter.

Should you have any queries please contact Sophie Butcher on 9228 2093.

Yours sincerely

 7/6/13

David Kitto
Director
Mining & Industry Projects
as Delegate for the Director-General
